WARD'S NURSERY

Phones 59-M & 119-M

AVON PARK, FLA.

2½ Miles East of Avon Park on NEW BOMBING RANGE ROAD

New Tangelos —Lake, Minneola and Seminole. Superb quality. Becoming very popular. Many progressive growers are making plantings on rough lemon, Cleo and sour orange root-stock. Especially desirable for the fancy box trade.

LAKE—Has been renamed the Orlando. Very early — October to December — Good Color and quality. Becoming very popular. The fruit sells on market from \$5.00 to \$6.00 per box.

MINNEOLA — Very highly colored — Beautiful fruit — Reddest of all tangelos. Ripens from December to March.

SEMINOLE — Uniform deep orange color. Very juicy — Highest quality. Ripens from January to April.

Pink Grapefruit — The Pinks bring a premium over common grapefruit.

Just watch the market reports on sales. We offer both Thompson which is a "pink" Seedless and the Foster, which has seed.

Meyer Lemon —The very best variety for home use. Very hardy. On rough lemon and Cleo stock.

OUR GUARANTEE

We guarantee all trees delivered to be true name, to be in good marketable condition and to have a good root system. We do not guarantee all trees to live as this depends largely on weather conditions and the manner in which the trees are handled and cared for after leaving the nursery. Our responsibility under this guarantee is limited to the purchase price of each tree.

When trees are bought in advance and a down payment is made on them, we assume the loss in the event of a freeze, but in the event of damage to trees which is so severe as to render them unfit for planting, we reserve the right to refund the cash paid and call the deal off or to furnish similar trees at the same price or at a later date.

We have a warm location but are prepared to fire our nursery in the event of a severe freeze.

OUR CAREFUL BUDWOOD SELECTION PRODUCES SUPERIOR TREES.
